LINGUE

ITALIANO (MADRELINGUA) ●●●●●

INGLESE - B1 ●●●○○

SPAGNOLO - A2 ●●●○○

COMPETENZE

- Cloud environments
- DevOps, Automation
- Networking
- Software Development
- Data Analysis
- Principi di machine learning

PUNTI DI FORZA

- Adattabile
- Proattivo
- Curioso
- Affidabile

SOFTWARE E LINGUAGGI

- Windows, Linux
- Cloud AWS, Oracle, Multicloud
- Docker, K8s, Ansible, Jenkins
- HTML, CSS, Javascript, PHP, Java, Python, Bash scripting
- SQL
- Unity
- Numpy, Pandas, Scikit-learn

PROFILO PROFESSIONALE

Cloud & DevOps Engineer, laureato in Ingegneria informatica, certificato AWS e Oracle Cloud.
Abile nella progettazione di soluzioni cloud e ibride, nell'automazione infrastrutturale (IaC) e nella gestione di ambienti containerizzati e middleware.
Unisco solide competenze nello sviluppo software e nell'analisi dati a un approccio metodologico diligente, scrupoloso e fortemente orientato al problem-solving.
Professionista curioso e appassionato, mi distinguo per la rapidità di apprendimento e l'affidabilità nel guidare i progetti verso il successo.

FORMAZIONE

Università di Catania **2023**

Laurea in Ingegneria Informatica

Tesi: Big Data e machine learning in ambito calcistico: gli Expected Goals (xG)

AWS & Edgemony **2024**

AWS Cloud Engineer Academy

Academy di 12 settimane in collaborazione con AWS Re/Start utilizzando i principali servizi AWS e soft skills.
Servizi e linguaggi: Compute, Storage, Networking, Databases, Security, Serverless, Containers, Linux, Python

I.T.I "E.FERMI", Siracusa **2017**

Diploma di perito informatico e telecomunicazioni

ESPERIENZE LAVORATIVE

Cloud&DevOps Engineer — Mag 2024 - presente

Kirey Group

Attività e Responsabilità:

- Progettazione e gestione di infrastrutture in ambienti Cloud, on-premise e ibridi, occupandosi del deployment, dell'integrazione e del rilascio di applicativi.
- Orchestrazione e configurazione di architetture a microservizi basate su container e gestione di attività middleware per garantire la stabilità e la scalabilità dei servizi.
- Sviluppo di soluzioni di IT Automation e Infrastructure as Code (IaC) per l'ottimizzazione dei sistemi, l'automazione dei processi e le attività di patching.
- Collaborazione attiva all'interno di team strutturati, coniugando una forte spinta all'apprendimento di nuove tecnologie con proattività nel problem-solving e un approccio flessibile e affidabile alle dinamiche aziendali.

Stack Tecnologico & Tool:

- Cloud & OS: AWS, Linux
- Containers & Orchestration: Docker, Kubernetes (K8s)
- CI/CD & Automation: Ansible, Jenkins, GitLab
- Scripting: Bash, Python

Sistemista informatico — Ott 2022 - Mar 2023

Gruppomega S.p.A.

Internship, ricoprendo il ruolo di System Engineer. Mansione principale la progettazione e la configurazione di sistemi di rete.

CERTIFICATI

- **AWS** Certified Cloud Practitioner
- **Oracle** OCI Professional - Multicloud Architect
- **Oracle** Data Platform Foundations Associate
- **Oracle** OCI AI Foundations Associate
- **Oracle** OCI Foundation Associate
- Cisco Networking Labs - Udemy
- Google Analytics
- Data Science & Machine learning - Udemy
- Data Anlysis with Python - Udemy
- Spanish Vocabulary - Coursera
- CSS,Bootstrap&Javascript-Udemy

Autorizzo il trattamento dei dati personali contenuti nel mio curriculum in base all'art.13 del D. Lgs. 196/2003 e all'art 13 GDPR 679/16

PROFESSIONAL PROFILE

Cloud & DevOps Engineer with a Computer Engineer degree, AWS and Oracle Cloud certified.
Experienced in designing hybrid/cloud solutions, infrastructure automation (IaC), middleware, and container orchestration. Leveraging a strong background in software development and data analysis, I approach complex technical challenges with diligence, curiosity, and an analytical mindset. A reliable, fast-learning professional passionate about continuous tech innovation and driving efficient operational workflows.

EDUCATION

Università di Catania **2023**

Bachelor's degree in computer engineering

Thesis: Big Data e machine learning in ambito calcistico: gli Expected Goals (xG)

AWS & Edgemony **2024**

AWS Cloud Engineer Academy

12-week Academy in partnership with AWS Re/Start using key AWS services and soft skills. Services and languages: Compute, Storage, Networking, Databases, Security, Serverless, Containers, Linux, Python

I.T.I "E.FERMI", Siracusa **2017**

Graduation in computer science and telecommunications

WORK EXPERIENCES

Cloud&DevOps Engineer — May 2024 - on going

Kirey Group

Responsibilities & Key Activities:

- Design and management of Cloud, on-premises, and hybrid infrastructures (AWS/Azure), overseeing application deployment, integration, and continuous releases via CI/CD pipelines.
- Orchestration and configuration of container-based microservices architectures and middleware management to ensure service stability, availability, and scalability.
- Development of IT Automation and Infrastructure as Code (IaC) solutions for system optimization, workflow automation, and systems patching.
- Active collaboration within structured teams, combining a fast learning curve for new technologies with proactive problem-solving and a flexible, reliable approach to business needs.

Tech Stack & Tools:

- Cloud & OS: AWS, Azure, Linux
- Containers & Orchestration: Docker, Kubernetes (K8s)
- CI/CD & Automation: Ansible, Jenkins, GitLab CI
- Scripting: Bash, Python

System Engineer — Oct 2022 - Mar 2023

Gruppomega S.p.A.

Internship, filling the role of System Engineer.
Main task: design and configuration of network systems.
